**HISTORY/FACTS/ISSUES:**

The last revision of the animal control ordinance was March 28, 2006. This ordinance amends certain definitions and provisions of Chapter 4 of the Sumter County Code related to animal control and provides for clarification, severability, and an effective date. The definition and provision changes to the ordinance are as follows:

- New definitions of feral and hybrid animals
- New hearing procedures employing the Sumter County Special Master
- New procedures for impoundment and possible destruction of feral and hybrid animals
- New procedures for governance of animal care establishment
- New provisions for abandoned livestock
- New regulations regarding pets in county parks
- New regulations regarding sterilization of outdoor cats
- Amended hearing procures to conform with Special Master
- Establishment of fines and fees by resolution.

A new provision for owner responsibility to pickup animal feces on private and public property has not been included herein for the following reasons:

- 1) The issue is covered under the current Sec. 4-10, "Dogs and cats running at large, (a) No person shall cause, permit, or allow a dog or cat to stray or in any manner to run at large in or upon any public street, sidewalk, or other public property or the property of another."
- 2) It is also covered Sec. 4-19, "Animals are prohibited in parks, playgrounds, public school premises, public buildings and on beaches, except where allowed." See new language as amended herein.

No changes have been made in the in Sec. 4-11(f), Impoundment, which describes length of stay and reads as follows: "Any animal without any form of identification which is impounded pursuant to this chapter may be redeemed within a minimum of three (3) working days from the date of impoundment, or within five (5) days if such animal is wearing a current rabies tag or is otherwise properly identified. The last day of redemption shall occur on a day the county shelter or other holding facility is open for business." The only change specific to the length of stay for animals requested by amendment herein is the addition of Sect.4-11(k), which allows for feral animals to be humanly destroyed within twenty four hours.
